2002 VITARA CONVERTIBLE 4x4

The Vitara 2-Door literally opens entirely new vistas, with a wind-in-your-hair canvas top and removable side windows. It gives you a bird's-eye view of the misguided, which for want of inspiration, bought a thoroughly sensible sedan. Rounding out the standard features, you'll find dual airbags and a five-link, coil-spring rear suspension system to smooth the bumps. Add to that the option of shift-on-the-fly 4WD for that extra measure of traction on slippery roads, and choosing Vitara becomes a no-brainer.

2002 HONDA ACCORD
 For the 15th time in 19 years, Car and Driver magazine has honored the Honda Accord by naming it to its prestigious 10Best list. A prominent panel of automobile experts analyzed over 200 vehicles priced below \$61,000. Judging criteria includes value, suitability for its intended purpose and the ability to safely discriminate drivers. A perennial feature on Car and Driver's 10Best list, the Accord was noted for its "silly smoothness and eerie silence. We adore the precise feel of its controls and switches. And we derive immense satisfaction from the unflappable competence when we hammer it on a challenging road."
 The National Highway and Traffic Safety Administration (NHTSA) has awarded the Honda Accord Coupe its highest possible safety rating-5 stars-for driver protection in a frontal impact*. The Accord has 3-point seat belts at all seating positions. Dual-stage driver and passenger's airbags (SBS) come equipped on all models. The EX and V6 models feature standard dual side airbags. The Accord's passenger cabin is surrounded by reinforced body elements, including steel beams in the doors and jambs that contribute to a comprehensive safety cage.
